PROFESSIONAL PROFILE

IT Support Professional with 4+ years of hands-on experience delivering first-line and remote technical support, computer repair, and system maintenance across government ICT departments, cyber service environments, and freelance engagements. Skilled in diagnosing and resolving hardware and software faults, troubleshooting Windows OS and basic network issues, resolving login and access failures, and maintaining workstation uptime across multi-user environments. Proficient in CRM and helpdesk platforms including HubSpot, Zendesk, and ServiceNow, with a structured approach to ticket logging, SLA compliance, and incident escalation. C2 Proficient English (EF SET Certified, 73/100 — May 2026) with strong communication skills for translating technical problems into clear solutions for non-technical users. Committed to fast resolution times, minimal downtime, and consistent end-user satisfaction.

EDUCATION

2023 – 2025	Diploma in Information Communication Technology (ICT) Kabete National Polytechnic
2017 – 2021	Kenya Certificate of Secondary Education (KCSE) Koderobara Secondary School

EXPERIENCE

Ben Connections Ltd — Kikuyu, Kiambu County

Internet Service Provider | 1,093 Customers

Jun 2026 – Present

Customer Support Executive

- Serve as the first point of contact for 1,093+ customers via phone, email, and live chat, handling inquiries related to internet connectivity, broadband performance, billing, and general service issues.
- Troubleshoot and resolve internet-related technical issues including modem/router configuration, connectivity disruptions, and Wi-Fi settings, escalating complex faults to the technical support team as required.
- Assist customers with account management tasks including service plan changes, billing inquiries, and coordination of new service activations and deactivations.
- Document all customer interactions, issues, and resolutions in the company CRM system, ensuring accurate records and facilitating cross-departmental follow-up.
- Coordinated with the internal technical team to resolve escalated customer issues and complex service inquiries, ensuring timely and effective resolutions for all parties.
- Educate customers on service usage, equipment maintenance, and performance optimisation to reduce repeat contacts and improve overall satisfaction.

Freelance IT Support

(Part-Time) — Nairobi

Jan 2022 – Feb 2026

Remote Computer Support Technician

- Provided on-demand remote IT support and virtual computer repair to individual and small business clients via AnyDesk, TeamViewer, and Windows Remote Desktop.
- Resolved software faults, OS errors, virus infections, password recovery, and network connectivity issues including Wi-Fi configuration and device communication, achieving a 95%+ first-contact resolution rate.
- Performed remote system maintenance including software updates and antivirus configuration.
- Logged and tracked all support tickets via CRM tools, escalating complex issues when necessary, and reduced repeat requests by ~30% through proactive preventative maintenance.

Ministry of Lands and Physical Planning

Nairobi

Jan 2025 – Apr 2025

IT Support Attaché

- Provided first-line IT support to 50+ departmental staff through on-site and remote assistance, resolving login failures, workstation errors, and application issues while maintaining near-zero disruption to daily operations.
- Carried out hands-on computer repairs, system maintenance, and basic network troubleshooting including LAN connectivity and device-to-device communication across departmental machines.
- Supported antivirus deployment across 30+ systems and handled printer connectivity, system updates, and user queries, consistently resolving issues within the same working day to meet SLA expectations.

Community Digital Services

Nairobi

2022 – 2023

IT Support Assistant

- Assisted 15+ daily walk-in clients with digital services including online applications, document preparation, and system troubleshooting.
- Performed physical and remote computer repairs and system maintenance, diagnosing hardware, software, and basic network faults between devices to reduce client wait times.
- Maintained workstations in a secure, updated state, ensuring consistent uptime across all public-access machines.

- Managed technical support and computer repairs for a high-traffic cyber café with 10+ networked workstations, keeping system and network availability above 90% during peak hours.
- Diagnosed and resolved OS errors, printer malfunctions, inter-device connectivity faults, and hardware and software issues for 30+ customers daily.
- Performed scheduled system maintenance including virus removal and software updates, reducing recurring faults by over 40%.

Local ICT Services (Part-time)

2020 – 2021
Junior Computer Support Assistant

- Provided basic IT support including computer repairs, OS installation, virus removal, and troubleshooting hardware, software, and network issues across multiple workstations.
- Assisted users with internet access, device connectivity, printer setup, and software configuration while ensuring systems operated efficiently for everyday use.
- Guided new users on basic computer operation and digital safety practices.
