PROFESSIONAL PROFILE

User-focused IT Support professional with hands-on experience diagnosing and resolving technical issues for both organizational staff and public users. Skilled in troubleshooting software errors, resolving login and password issues, supporting application functionality, and guiding non-technical users through clear step-by-step solutions. Experienced assisting high volumes of users in cyber service environments and government ICT departments where reliable system access and fast issue resolution are essential. Adept at remote troubleshooting, documenting support requests, and maintaining structured ticket resolution processes to ensure minimal downtime and consistent service delivery. Known for clear communication, patience with end users, and the ability to translate technical problems into practical solutions that improve productivity and user satisfaction.

EDUCATION

2023 - 2025	Diploma in Information Communication Technology (ICT) Kabete National Polytechnic
2017 - 2021	Kenya Certificate of Secondary Education (KCSE) Koderobara Secondary School

EXPERIENCE

Freelance IT Support — Nairobi	Remote Computer Support Technician
2022 - 2026	Provide on-demand technical support for individuals and small offices including remote troubleshooting of software issues, operating system errors, and system configuration problems. Assist users with password recovery, OS installation, virus removal, and internet connectivity troubleshooting while guiding non-technical clients through clear step-by-step solutions. Document recurring issues and recommend preventative actions to improve system stability and reduce future technical disruptions.
Ministry of Lands and Physical Planning — Nairobi	IT Support Attaché
Jan 2025 - Apr 2025	Provided front-line IT support to departmental staff by diagnosing software problems, resolving login and password access issues, and assisting users experiencing workstation or application errors. Supported ICT officers in deploying antivirus protection across multiple systems while ensuring minimal interruption to staff productivity. Assisted with troubleshooting printer connectivity, system updates, and general user support while maintaining professional communication with non-technical users.
Community Digital Services — Nairobi	IT Support Assistant
2022 - 2023	Assisted local clients with digital services including online applications, document preparation, and system troubleshooting. Diagnosed common software issues, supported internet connectivity problems, and guided users unfamiliar with computer systems through digital processes. Maintained computer workstations and ensured systems remained secure, updated, and functional for daily use.

Interweb Cyber Services —
Nairobi
Apr 2021 – Oct 2021

IT Support Technician
Managed technical support operations in a busy cyber café assisting customers with computer access, internet connectivity, document processing, and printing services. Diagnosed and resolved operating system errors, printer malfunctions, and application issues while maintaining stable system performance across multiple machines. Performed routine maintenance including virus removal, software installation, and workstation troubleshooting.

Local ICT Services (Part-time)
2020 – 2021

Junior Computer Support Assistant
Provided basic computer support services including operating system installation, virus removal, and troubleshooting hardware and software issues. Assisted users with internet access, printer setup, and software configuration while ensuring systems operated efficiently for everyday use. Helped maintain computer workstations and guided new users on basic computer operation and digital safety practices.
